 **Jemtech**
Advanced Fluid Management

The NEW Auto Fill Mini

Elevate your metal CNC machining operations to new heights with the Auto Fill Mini, the leading-edge solution in automatic cutting fluid and neat oil replenishment. Expertly designed for swift and effortless integration, this revolutionary system enhances process stability and minimises coolant usage, ensuring your operations are more efficient and cost-effective. Forget the hassles of manual refills and downtime; with the Auto Fill Mini, experience a seamless boost in machining productivity and performance.

Dimensions	Main unit	Coolant tank unit	Neat oil container
Width (mm)	160mm	80mm	600mm
Depth (mm)	110mm	60mm	240mm
Height (mm)	60mm	50mm	480mm
Weight (Empty)	5KG		
Input Voltage	24V DC		
Current Rating	1.5 A		
Frequency	60Hz		
Water Supply	Mains pressure		
Noise Output	<20 dBA		

Auto Fill Mini

Automatic top-ups

Auto Fill

Automatic top-ups with extra capacity

Auto Fill Plus

Automatic top-ups with monitoring capabilities

Oracle System

Advanced Fluid Management and replenishment

Jemtech Product Range

Mist extraction

Air purification filters from CNC to full factory solutions.

Industrial vacuums

Coolant / neat oil industrial vacuum units.

Cutting fluids

Reduce costs, increase efficiency and provide quality where it counts.
